DEC 03 1985

Mr. Robert H. Kaatman
Environmental Compliance
McDonnell Douglas Corporation
P.O. Box 516
St. Louis, Missouri 63112

Dear Mr. Kaatman:

In accordance with a letter from Mr. H. D. Rehkop of your facility dated October 8, 1985, and a telephone conversation between Joe Galbraith and Mr. Rehkop on November 25, 1985, the emergency Resource Conservation and Recovery Act (RCRA) Permit number MOP000000204 issued to McDonnell Douglas Corporation on August 23, 1985, is amended as follows:

1. The amount of reactive waste (explosive) materials to be removed, transported, and thermally treated is increased from 859 pounds net explosive weight (NEW) to 948 pounds NEW.
2. The Permit is extended until January 8, 1986.
3. All other conditions stated in the original Permit remain in effect.
4. The following condition is added to the other conditions in the original Permit. No reactive waste (explosive) materials may be transported over any roadways that are hazardous due to moisture, ice, snow, or under repair.

This modification to Permit number MOP000000204 is part of that Permit and must be attached to the Permit. This modification is effective upon receipt.

If there are any questions, please contact Joe Galbraith at (913) 236-2888.

Sincerely yours,

David A. Wagoner
Director, Waste Management Division

Joe Galbraith

FROM:

H.D. Rehkop
McDonnell Douglas

DATE

11/25/85

TIME

SUBJECT

Emergency Permit # MOP000000204

SUMMARY OF COMMUNICATION

Mr Rehkop stated that the facility and the contractor had completed negotiations to accomplish the removal and treatment of the explosive wastes. The wish to proceed and have established a target date of Dec. 9, 1985, for the activity and expect to complete the activity within two weeks of that date. I replied that I would talk to MDNR and get back to him (Rehkop). One additional condition would be that no explosive wastes would be transported over slippery or hazardous roads.
